Strategic Investment Opportunities

The theme of this briefing is the "Philippines Investment Forum" organized by AyalaLand Logistics Holdings Corp. The Philippine Economic Zone Authority (PEZA), a government agency that promotes the establishment of economic zones in the Philippines for foreign investments and that extends assistance in the business operations of investors in export-oriented manufacturing and service facilities inside Special Economic Zones, will support and participate in this exclusive briefing session.

It will detail the robust investment opportunities offered in ALLHC's Prime Industrial Properties in the Philippines which include strategically-located Industrial Parks, Ready-Built Facilities, and Build-To-Suit development solutions.
